SLA Central - Overview Page - contd..

The screenshot displays the SLA Central - Overview Page, featuring a navigation sidebar on the left and three main content sections: TestCentral, DevSecOps Central, and OPS Central.

TestCentral: A grid showing SLA metrics for six departments: EMS, PROCUREMENT, SALES, INTERNAL AUDIT, and DIGITAL AUCTION. The background color of each cell indicates performance levels: green (>98%), orange (75% > 90%), and red (<75%).

	EMS	PROCUREMENT	SALES	INTERNAL AUDIT	DIGITAL AUCTION
TestCentral	98.98%	98.94%	98.99%	99.02%	99.04%
EMS	99.07%	99.00%	98.98%	99.00%	98.96%
PROCUREMENT	99.11%	99.02%	98.98%	99.04%	98.99%
SALES	98.97%	98.95%	99.03%	99.00%	99.07%
INTERNAL AUDIT	98.89%	99.02%	99.06%	98.91%	98.97%
DIGITAL AUCTION	99.00%	99.08%	98.93%	98.98%	98.99%

Legend: Green square: >98% 75% > 90% Red square: <75%

DevSecOps Central: A dashboard with three cards: DEV Central, SEC Central, and OPS Central. The DEV Central card shows metrics for Volume, Velocity, and Reliability across Product, Services, Release, Use Case, Bugs, Workflow, and Documentation. The SEC Central card shows metrics for Infra, APP, and Data across Account, VPC, Cluster, and Managed Services. The OPS Central card shows metrics for Volume, Velocity, and Reliability across New Cloud Provisioning, New Product, Service On Boarding, New Automation, and Alert Resolved.

OPS Central:

Volume	Velocity	Reliability
New Cloud Provisioning	▲ 56%	
New Product	▼ 21%	
Service On Boarding	▼ 35%	
New Automation	▲ 40%	
Alert Resolved	▲ 45%

Asset Central – AWS Env – Assets Service View

The screenshot shows the Asset Central interface for an AWS environment. The left sidebar contains a vertical list of navigation icons: Overview, Assets, App Catalogue, Alert, Analytics, Ops central, Dev Central, Sec Central, Tools and Diagnostics, Preference, and Resource. The main area is titled "Environments" and shows an "AWS" account with the account number "AWS (657907747545)". The "Discovered Assets" tab is selected, displaying a "Services View" with 81 results. The view includes a search bar, filter options for deployment name, app, and SLA, and buttons for Add, Refresh, and Delete. The service hierarchy on the left shows VPC 1, Cluster 1 (with App Services and Data Services), Cluster 2, Cluster 3, Cloud Managed Services, Gateway Services, VPC 2, VPC 3, VPC 4, and Global Services.

Asset Central – AWS Env – Assets Infra View

The screenshot displays the Asset Central interface for managing AWS environments. The left sidebar shows various navigation options: Overview, Environments (selected), Assets, App Catalogue, Alert, Analytics, Ops central, Dev Central, Sec Central, Tools and Diagnostics, Preference, and Resource.

The main header includes the APP CUBE logo, a search bar ("Search resources, services and docs (G+)"), and user icons for profile, settings, notifications, and help.

The top navigation bar for "ASSET MANAGEMENT" shows "Environments" and a breadcrumb path "Home > Assets | Environments".

The "Environments" page for "Amazon Web Services" (Account Number - AWS (657907747545)) displays tabs for "Discovered Assets", "Applications", "Billing", "Threat and Security Events", "Compliance Policies", "Alerts", and "Inputs".

The "Infrastructure View" section shows 81 results, with a search bar and export options. It lists resources under "AWS" and "VPC 1".

Asset Central – AWS Environment Details contd...

The screenshot displays the APP CUBE Asset Central interface, specifically the 'Environments' section under the 'Assets' category. The left sidebar shows various navigation options like Overview, Environments, Department Wise Products, Product Wise Services SLA, All Inputs, Discovered Assets, Monitored Assets, Org Unit, Custom-Resources, Sec Central, Tools & Diagnostics, Preference, RBAC Settings, and Resource. The main area is titled 'PERFORMANCE MANAGEMENT' and 'Environments'. It features a navigation bar with tabs: Discovered Assets (selected), Applications, Billing, Threat and Security Events, Compliance Policies, Alerts, and Inputs. Below this is a search bar and a back button. The central part of the screen shows a hierarchical tree view of AWS environments, starting with 'aws AWS' and branching into 'VPC1' and 'VPC2'. Under 'VPC1', there are nodes for 'GLOBAL', 'CloudManaged', 'HRMS', 'EMS', 'Cluster1', and 'Cluster2'. Under 'CloudManaged' in VPC1, there is a node for 'FileRepo-app1 (API-Gateway)'. Under 'VPC2', there are nodes for 'GLOBAL', 'CloudManaged', 'Cluster1', and 'Cluster2'. Under 'CloudManaged' in VPC2, there is a node for 'FileRepo-data (CDN data service)'. To the right of the tree view is a table with columns: Name, Performance, Availability, Security, Compliance, and End Usage. The table lists resources from both VPC1 and VPC2, each accompanied by a series of green checkmarks indicating performance metrics.

Name	Performance	Availability	Security	Compliance	End Usage

The screenshot displays the Asset Central application's Performance Management section for an AWS environment. It shows basic metadata for the account (AWS-(897373451)), the organization unit (Synectiks), and the associated product (EMS). It also lists the associated element (Lambda), environment (PROD), and two alerts. Below this, there are tabs for Performance, Availability, Reliability, End Usage, Security, Compliance, and Alerts. The main area features a tree view of Lambda functions and a chart titled 'Top Duration' comparing execution times over the last week. A secondary chart titled 'Duration - Last week' provides a bar chart view of the same data. The sidebar on the left contains links to various management tools like Overview, Assets, App Catalogue, and Dev Central.

The screenshot displays the Asset Central application's performance management section. On the left, a sidebar lists various monitoring and configuration options like Overview, Assets, App Catalogue, etc. The main area shows 'PERFORMANCE MANAGEMENT' and 'Environments'. A specific environment named 'FileRepo-app2' is selected. The top navigation bar includes a search bar, a home link, and a back button. Below the navigation is a table with AWS account information and environment details. The 'Reliability' tab is active, showing a panel for a Lambda function named 'reliability_lambda_pqhax'. This panel includes a general summary, function caller details, and an errors by function/trend section. The errors by function section is a grid of purple squares, each containing a white '0'. The errors by function-trend section is a line chart showing error counts over time from November 1st to November 25th, with several data series plotted.

Asset Central – AWS Service Details – Enable Monitoring

The screenshot shows the Asset Central interface for managing AWS services. On the left, a sidebar lists various categories: Overview, Assets (selected), Department Wise Products, Product Wise Services SLA, All Inputs, Discovered Assets, Monitored Assets, Org Unit, Custom-Resources, Sec Central, Tools & Diagnostics, Preference, RBAC Settings, and Resource.

The main content area is titled "Environments" and displays five environments: FileRepo-app1, FileRepo-data1, FileRepo-app1, FileRepo-app2, and FileRepo-app2. The "FileRepo-app1" environment is currently selected. The top navigation bar includes a search bar, a grid icon, a list icon, a gear icon, a bell icon, and a user profile icon.

The central panel shows AWS account information: AWS-(897373451) > VPC1 > CloudManaged > EMS. It provides details about the associated element (Lambda), organization unit (Synectiks), and environment (PROD). The service type is listed as App with a service score of 97.61%.

A callout box in the center states "Monitoring is not enabled yet" and provides instructions: "To enable Monitoring dashboards you will first have to configure the inputs for data collection". A blue "Enable Monitoring" button is located at the bottom of this box.

A note at the bottom of the page states: "Note: This screen will be displayed only for first time setup, if Inputs are already configured we will show list of dashboards as shown in last screen of this process flow".

Asset Central – AWS Service – Enable Monitoring contd...

The screenshot shows the APP CUBE Asset Central interface. The left sidebar contains navigation links for Overview, Assets, App Catalogue, Alerts, Analytics, Ops central, Dev Central, Sec Central, Tools & Diagnostics, Preference, RBAC Settings, and Resource. The main content area is titled "Environments" and displays five environments: FileRepo-app1, FileRepo-data1, FileRepo-app1, FileRepo-app2, and FileRepo-app2. A "Save view" button is located in the top right of this section. Below this, there is a header for "aws Amazon Web Services Account Number - AWS-{897373451}" with breadcrumb navigation: AWS-{897373451} > VPC1 > CloudManaged > EMS. The main content area displays the following details:

Organisation Unit	Synectiks	Associated Product	EMS
Associated Element	Lambda	Added At	Feb 01, 2021 21:30
Associated Environment	PROD	Service Type	App
Alerts	2	Service Score	97.61%

Below the table, there are tabs for Performance, Availability, Reliability, End Usage, Security, Compliance, and Alerts, with Reliability selected. A progress bar at the bottom indicates steps: Verify Inputs → Enable Dashboard → Preview → Verify and save.

Asset Central – AWS Service – Enable Monitoring contd...

The screenshot shows the APP CUBE Asset Central interface. On the left, a sidebar lists various categories: Overview, Assets (selected), App Catalogue, Alerts, Analytics, Ops central, Dev Central, Sec Central, Tools & Diagnostics, Preference, RBAC Settings, and Resource. A search bar at the top right contains the placeholder "Search resources, services, and docs".

The main content area is titled "Environments" and displays five tabs: FileRepo-app1, FileRepo-data1, FileRepo-app1, FileRepo-app2, and FileRepo-app2. A "Save view" button is located in the top right of this section.

Below the tabs, the interface shows the AWS account information: "Amazon Web Services Account Number - AWS-(897373451)". It also displays the navigation path: "AWS-(897373451) > VPC1 > CloudManaged > EMS".

The main data table provides details about the environment:

Organisation Unit	Synectiks	Associated Product	EMS
Associated Element	Lambda	Added At	Feb 01, 2021 21:30
Associated Environment	PROD	Service Type	App
Alerts	2	Service Score	97.61%

Below the table, there are tabs for Performance, Availability, Reliability (selected), End Usage, Security, Compliance, and Alerts. A progress bar indicates the status of "Verify Inputs" (in progress), "Enable Dashboard" (not yet started), "Preview" (not yet started), and "Verify and save" (not yet started).

The "Input" section lists two entries: "AWS-PullLogs-Api-o2K37" and "AWS-PullMetric-Api-vuazu". The "Available Dashboards" section lists several options, with checkboxes indicating which ones are selected:

- AWS-LAMBDA-OVERVIEW (selected)
- AWS-LAMBDA-Cloudwatch-Duration-And-Memory (selected)
- AWS-LAMBDA-ULM-Usage-Analysis (selected)
- AWS-LAMBDA-Cloudwatch-Duration-And-Memory (not selected)

At the bottom right, there are "Previous" and "Next" buttons.

Overview Assets App Catalogue Alerts Analytics Ops central Dev Central Sec Central Tools & Diagnostics Preference RBAC Settings Resource

Asset Central – AWS App Centric Optimizations

The screenshot displays the Asset Central interface, specifically the Applications tab. The left sidebar contains a navigation menu with various icons and labels: Overview, Environments, Assets, App Catalogue, Alerts, Discovered Assets, Monitored Assets, Org Unit, Custom-Resources, Sec Central, Tools & Diagnostics, Preference, RBAC Settings, and Resource. The main content area has a search bar at the top. Below the search bar is a navigation bar with tabs: Discovered Assets, Applications (highlighted in blue), Billing, Threat and Security Events, Compliance Policies, Alerts, and Inputs. The Applications section lists several applications grouped by department:

Name	Cloud Environment	App Services	Data Services	Product Environment	Actions
QA					...
TestCentral		132	240	PROD,DEV,TEST,STAGE	...
R&D					...
LMS		140	260	PROD,DEV,TEST,STAGE	...
LOGISTICS					...
PROCUREMENT		136	232	PROD,DEV,TEST,STAGE	...
Deployment environments					Cluster dropdown (Cloud Managed, Cluster, View All)
PROD	Business				...
DEV	Common				...
TEST					...
STAGE					...
DIGITAL AUCTION		128	208	PROD,DEV,TEST,STAGE	...
FINANCE					...
SALES		148	268	PROD,DEV,TEST,STAGE	...

A modal window is open over the DIGITAL AUCTION row, showing a deployment environment configuration. It includes a sidebar for "Deployment environments" with four options: PROD, Business, DEV, Common, TEST, and STAGE. To the right of the sidebar is a "Cluster" dropdown menu with options: Cloud Managed, Cluster, and View All. There are also "+" and "x" buttons for managing the environments.

Asset Central – AWS App Centric Optimizations

The screenshot displays the Asset Central interface, which is a cloud-based management tool for application assets. The left sidebar contains a navigation menu with the following items:

- APP CUBE
- Overview
- Assets
- App Catalogue
- Alerts
- Analytics
- Ops central
- Dev Central
- Sec Central
- Tools & Diagnostics
- Preference
- RBAC Settings
- Resource

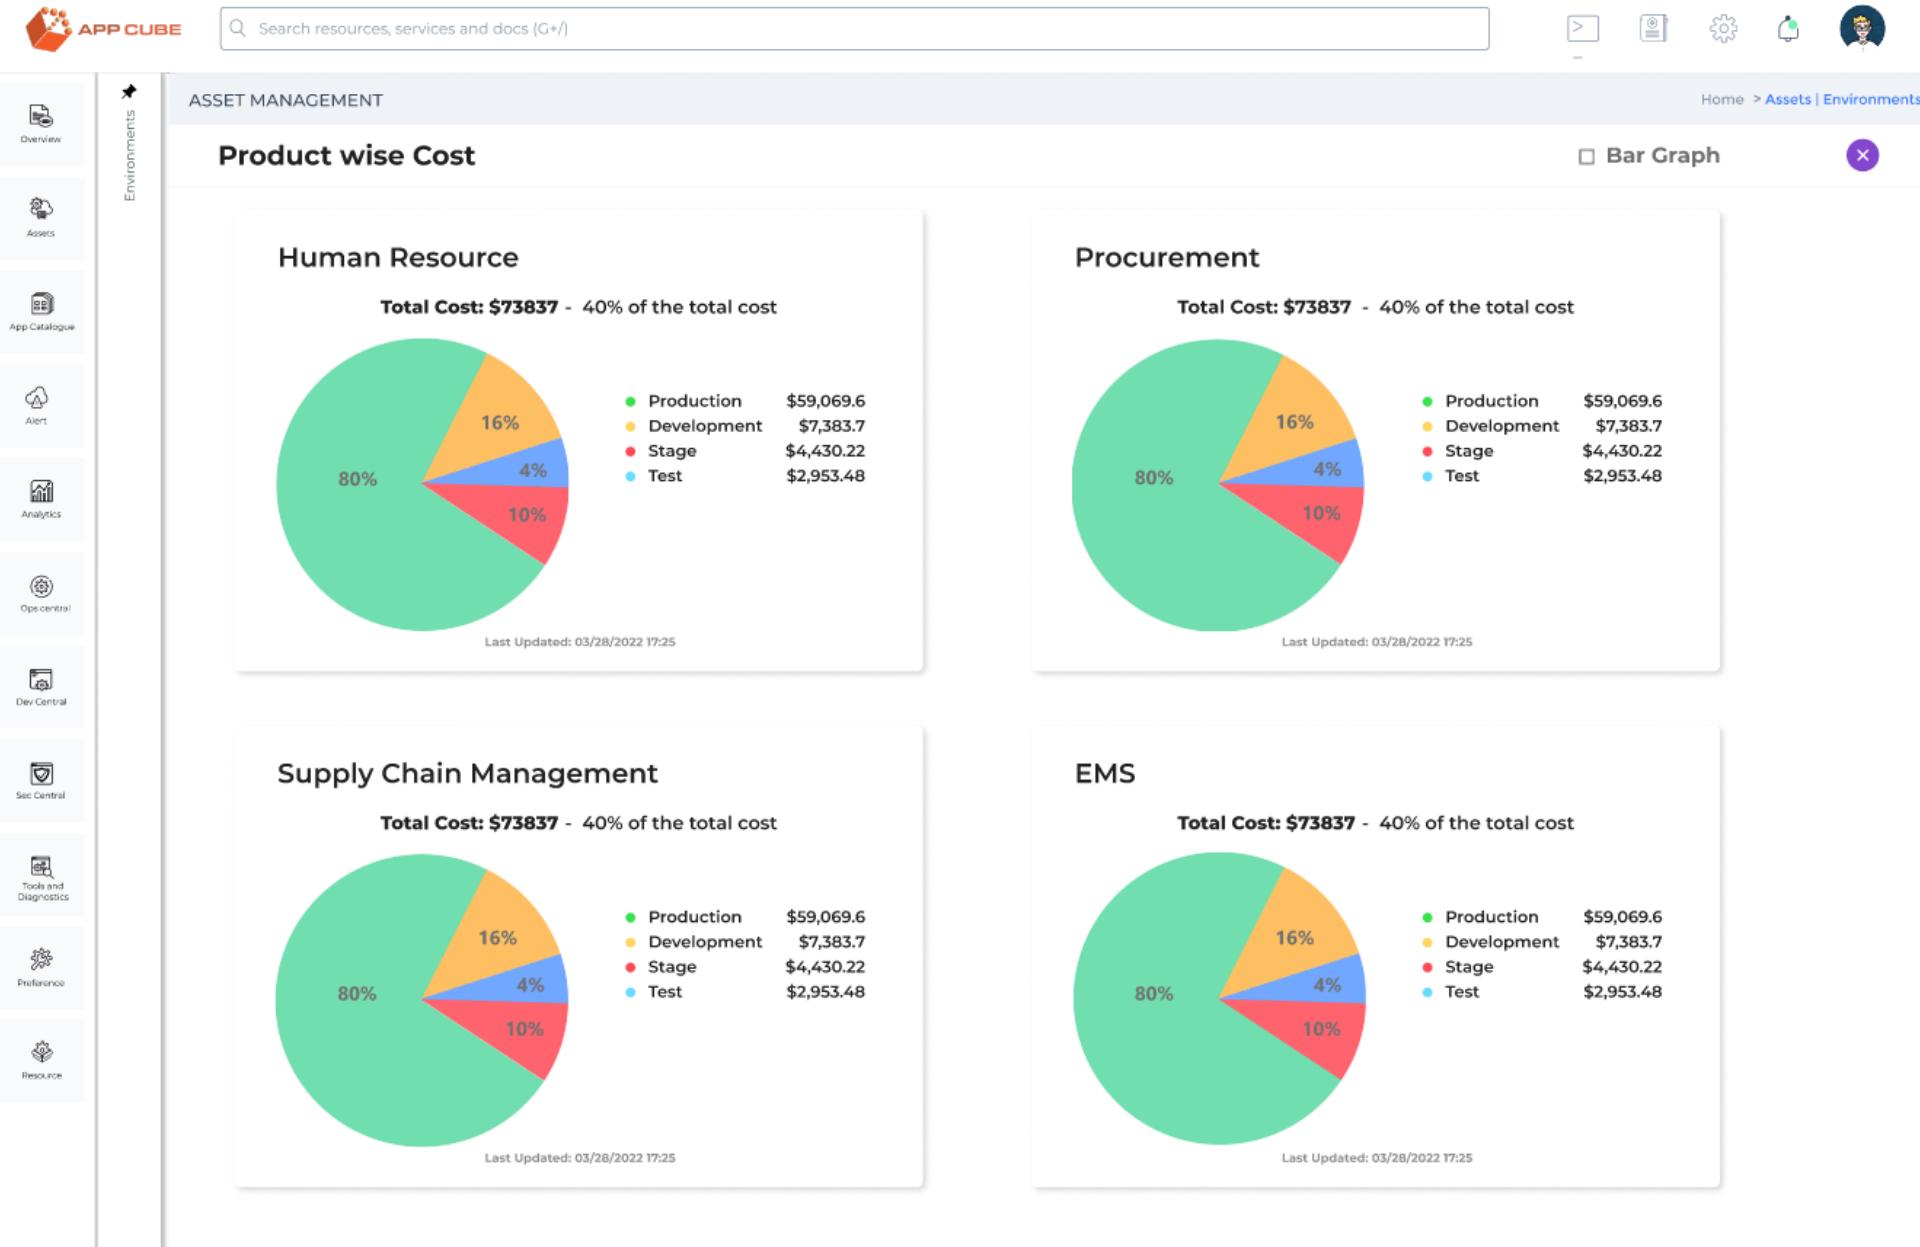

The main content area shows several sections of data:

- R&D**: LMS section with values 140, 260, and PROD,DEV,TEST-STAGE.
- LOGISTICS**: PROCUREMENT section with values 136, 232, and PROD,DEV,TEST-STAGE.
- Deployment environments**: A table showing application performance across four environments: PROD, DEV (selected), TEST, and STAGE. The table includes columns for Name, Performance, Availability, Security, Compliance, and End Usage. Applications listed include FileRepo-app1, FileRepo-app2, FileRepo-data1, FileRepo-data2, FileRepo-data3, AlertCentral, LogCentral, MetricCentral, and TraceCentral.
- DIGITAL AUCTION**: Values 128, 208, and PROD,DEV,TEST-STAGE.
- FINANCE**: No visible data.

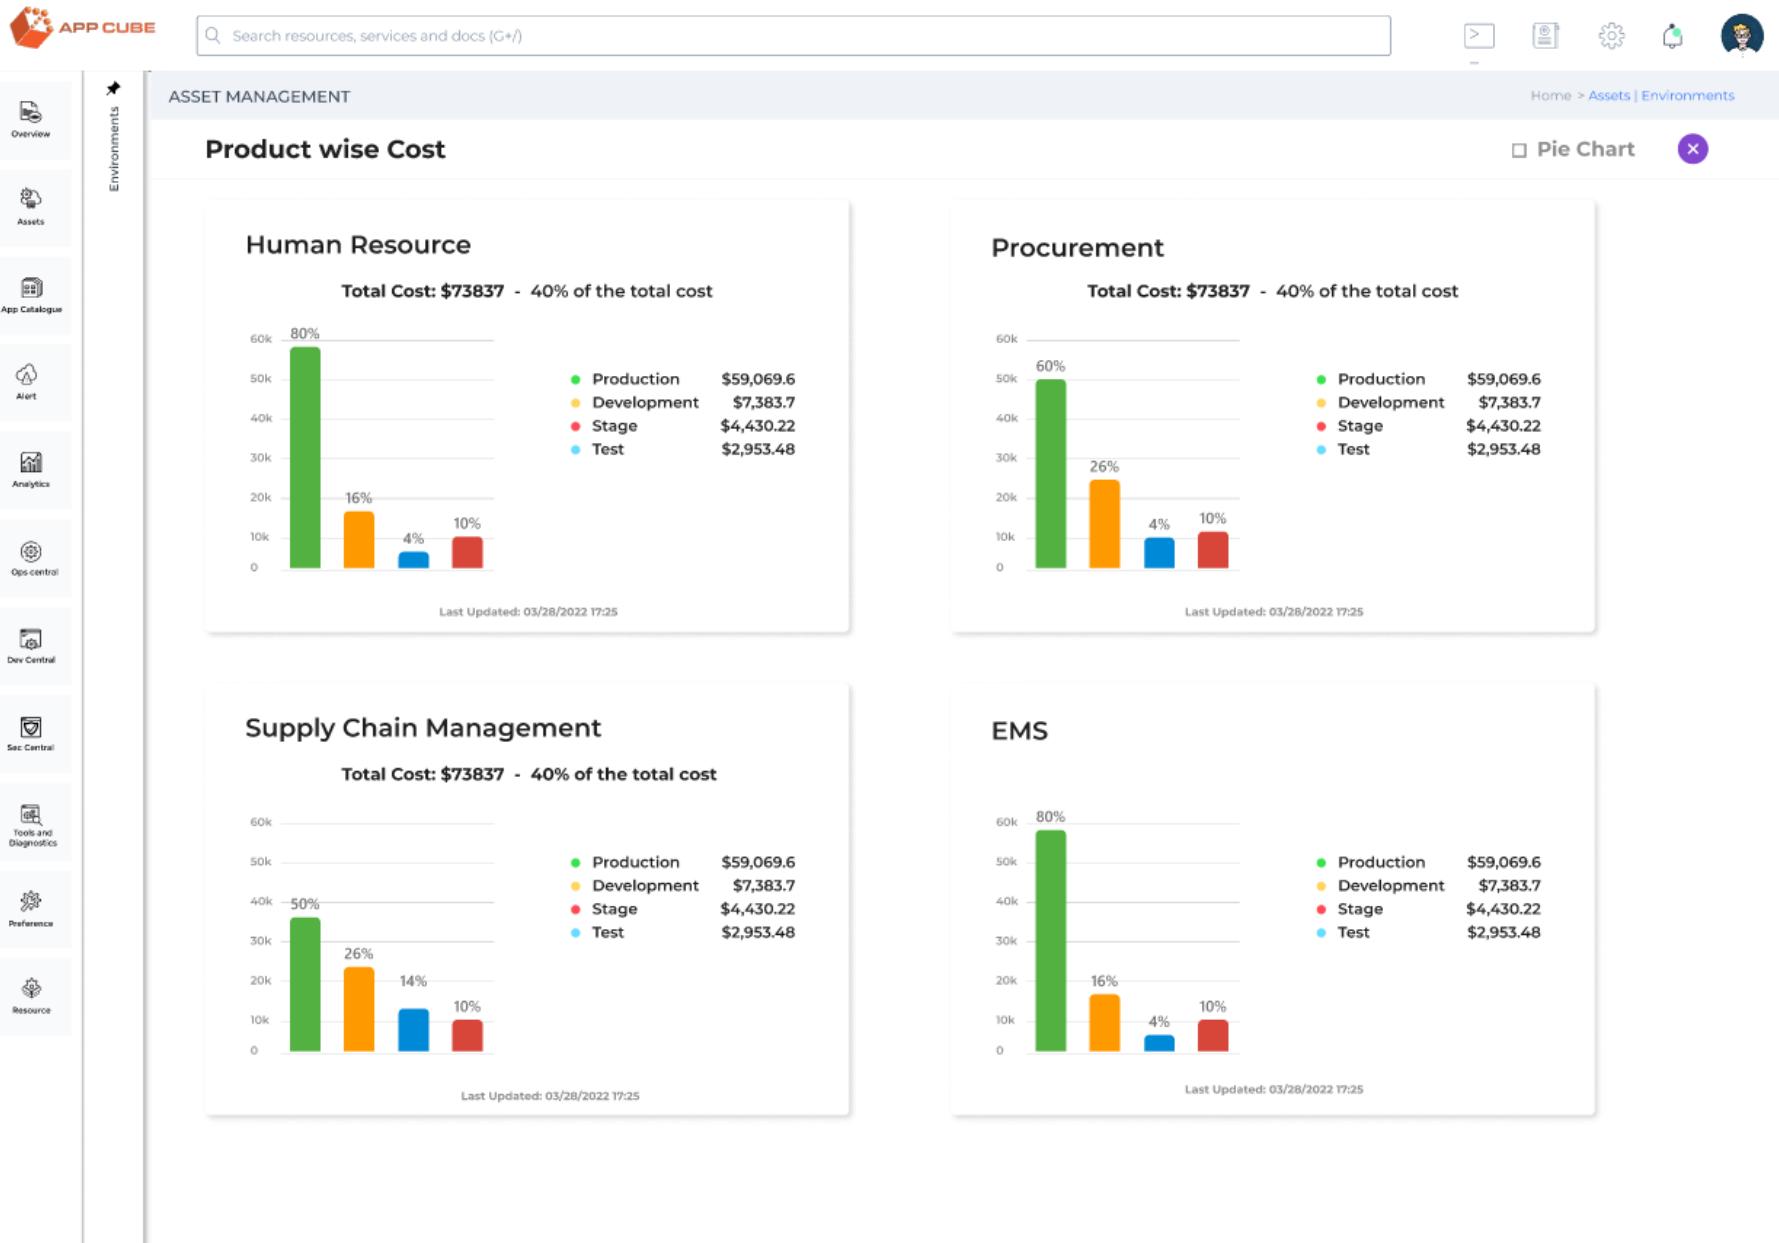

A search bar at the top is labeled "Search resources, services, and docs". The top right corner features icons for settings, notifications, and user profile.

Asset Central – AWS Product Wise Service SLA contd...

The screenshot shows the APP CUBE interface with the 'Product Wise Services SLA' tab selected. A modal window titled 'ListAndAct' is open, displaying service details and a table of services.

Modal Window Content:

- Total Cost : \$395 Quality Score : 98.84%
- Performance: 99.28% Availability: 98.72% Security: 98.77%
- End Usage: 98.89% Compliance: 98.53%

Service Type	Services	Service Nature	Location	Type
App Services	ListAndAct-app1	Business	NA	Java API
Data Services	ListAndAct-data1	Business	NA	Postgresql
	ListAndAct-data2	Business	NA	ElasticSearch
	ListAndAct-data3	Business	NA	Redis

Background Interface:

- Sales:** DEV, Service wise view, Business.
- Business Category:** ListAndAct, Admiss, CRM, EXAM, Common.
- Other Categories:** Search, PolicyMan, PreferenceConfig.
- Metrics:** Performance, Availability, Compliance, Security, End Usage.
- Icons:** Overview, Assets, App Catalogue, Alerts, Analytics, Ops central, Dev Central, Sec Central, Tools & Diagnostics, Preference, RBAC Settings, Resource.

Asset Central – AWS Product Wise Service SLA – Topology

The screenshot shows the Asset Central interface for managing AWS Product Wise Service SLA. The top navigation bar includes the APP CUBE logo, a search bar, and various icons for account management and notifications.

The left sidebar lists various service categories:

- Overview
- Assets
- App Catalogue
- Alerts
- Analytics
- Ops central
- Dev Central
- Sec Central
- Tools & Diagnostics
- Preference
- RBAC Settings
- Resource

The main area is titled "SALES" and displays a "Topology view" for the "App Services" section. It is organized into four stages: DEV, STAGE, PROD, and TEST. A "Search" bar is located at the top right of the topology view.

The topology view is divided into several sections:

- Mobile apps**: A vertical stack of services including Applications, Dashboard, Reports, Query, and API.
- WAF**: A vertical stack of services including WAF and API Gateway.
- API Gateway**: A vertical stack of services including WAF and API Gateway.
- Orchestration**: A vertical stack of services including Cluster (Load Balancer, Service Mesh), Server less, and Cloud Managed.
- Business Service**: A vertical stack of services including ListAndAct, Admission, Attendance, Collaboration, CRM, Search, PolicyManager, Catalogue, ChangeCentral, and Dataflow.
- Common Service**: A vertical stack of services including ListAndAct, Admission, Attendance, Collaboration, CRM, Search, PolicyManager, Catalogue, ChangeCentral, and Dataflow.
- Data Services**: A vertical stack of services including Clustered (Admission, Attendance, Collaboration, Kinesis, CRM, EXAM, etc.) and Cloud Managed (ListAndAct, LMS, Canteen, FileRepo, etc.).

Asset Central – AWS Product Wise Service SLA – Topology contd...

The screenshot displays the APP CUBE interface, specifically the Product Wise Services SLA section. The main navigation bar includes 'APP CUBE' (with a red paw icon), a search bar ('Search resources, services, and docs'), and various icons for settings and notifications.

The left sidebar lists several categories: Overview, Assets, App Catalogue, Alerts, Analytics, Ops central, Dev Central, Sec Central, Tools & Diagnostics, Preference, RBAC Settings, and Resource. The 'Product Wise Services SLA' category is currently selected.

The main content area shows a 'SALES' dashboard. It features a 'Topology view' section with a grid of service components: Mobile apps, Applications, Dashboard, Reports, Query, API, WAF, API Gateway, Business Service, Orchestration, and Common Service. Below this, a summary box for 'Admission' provides key metrics:

Total Cost : \$297	Quality Score : 99.13%	
Performance: 99.59% 	Availability: 99.17% 	Security: 99.11%
End Usage: 98.53% 	Compliance: 99.24% 	

A detailed table below lists 'Data Services' under the 'Service Type' column:

Service Type	Services	Service Nature	Location	DB Type
Data Services	Admission-data1	Business	NA	Postgresql
	Admission-data2	Business	NA	ElasticSearch
	Admission-data3	Business	NA	Redis

On the right side, there are two vertical stacks of service components: 'Data Services' and 'Cloud Managed'. The 'Data Services' stack includes 'Clustered' (Admission, Attendance, Collaboration, Kinesys, CRM, EXAM, Finance) and 'Cloud Managed' (LMS, Canteen, FileRepo). The 'Cloud Managed' stack also includes 'ListAndAct' (LMS, Canteen, Catalogue, OLAP, RealtimeAnalytics, FileRepo).

Service Desk – Ticket Summary

The screenshot displays the WE Desk service desk interface. On the left, a sidebar menu includes options like Dashboard, Tickets, Agents, Team View, Customer, Social, Chat, and Setting. The main area shows a ticket summary for ticket #1021212, which was created 3 hours ago. The ticket details include:

- Contact Details:** Lawren louis (CEO @ Synectiks), Email: Lawren@synectiks.com, Phone number: 969696969, Company Located: USA, Time Zone: US.
- Properties:** Priority: Medium, Handling Agent: Hussy, Resolution Date: 02/09/2022.
- Notes:** Close Ticket ASAPI.

The ticket body contains an email from Lawren Louis to Support@synectiks.com regarding a website issue. It includes four screenshots and a reply from Agent 12021. The customer response is also shown. At the bottom, there are links to see more responses and a closed status with a re-open link.
